EXPERIENCE

Tennis Coach at NYJTL

2024 June-August

- Coached 20+ beginner to intermediate students in tennis fundamentals, strategy, and tournament preparation
- Built strong communication skills working directly with parents and students across competitive events

NYU Langone Hospital Lab Assistant

2023 September-November

- Processed, labeled, and tracked blood samples in compliance with hospital and regulatory protocols
- Maintained inventory of blood products and coordinated timely specimen delivery to support clinical staff
- Updated records in laboratory information systems, ensuring accuracy across patient and supply data

National Marrow Donor Program Volunteer

- Volunteered for events at Stony Brook University
- Spread awareness about bone marrow donation

PROJECTS

Landed (Next.js, TypeScript, PostgreSQL, Prisma, Claude API, MCP)

2026 Oct

- Built a full-stack job tracker with a drag-and-drop Kanban board and event-sourced status history
- Built an MCP server with OAuth 2.1 so Claude and ChatGPT can read and update users' applications
- Used the Claude API to classify forwarded job emails and update applications automatically, with undo
- Wrote unit, integration, and Playwright E2E tests and added rate limiting and per-user data isolation

ResumeAI (Node.js, Express, Anthropic Claude API, Chart.js, SSE)

2026 June

- Built a full-stack AI-powered resume analyzer supporting drag-and-drop PDF upload and plain text input.
- Integrated Anthropic Claude API to score resumes across 5 dimensions: Skills Match, Experience Quality, Formatting, ATS Compatibility, and Impact.
- Implemented real-time response streaming using Server-Sent Events (SSE) for progressive result reveal as the AI responds.
- Engineered a bullet point rewriter, a missing keywords tag cloud, and a role match detector to provide actionable resume feedback.

Personal Portfolio Website (HTML, CSS, JavaScript)

2026 May

- Designed and developed a responsive single-page portfolio website to showcase projects and experience
- Implemented scroll-triggered animations, a typewriter hero section, and a bento grid project layout
- Hosted on GitHub Pages with a custom domain for public accessibility

EDUCATION

Stony Brook University

Expected May 2028

B.S. in Information Systems, Concentration in Technology Systems Management

Relevant Coursework: Data Structures, Database Design, Digital Logic Design, Systems Networks, Information Technology, Electrical and Computer Engineering

Leadership: Vice President External, Lambda Phi Epsilon

SKILLS

Languages: Java, Python, TypeScript, JavaScript, SQL, C, C++, HTML/CSS

Frameworks & Libraries: Next.js, React, Node.js, Express.js, Prisma, Tailwind CSS, FastAPI, Chart.js

Tools & Platforms: PostgreSQL, Vercel, Git, Vitest, Playwright, Firebase, Wireshark

Concepts: REST APIs, OAuth 2.1, MCP Servers, AI/LLM Integration, Automated Testing, OOP, SSE Streaming
